Presidents Message

Can you believe it! We just experienced a 30" plus snow storm. But, Spring is just around the corner, March 20th. Only 49 days away and days are getting longer.

We have a lot to look forward to: The Great Race Challenge on February 20th, our annual banquet on March 12th. And, let's not forget the Garage Crawl on March 19th.

I know we all have very busy schedules, but try to make at least one of the events. You are guaranteed a good time. Hope to see you soon.

**Joe O'Fria,
President, TDC Motor Club**

"MEMBERS"

****Be sure to check out the flyers for the The Great Race Challenge on February 20th and our Annual Dinner on March 12th that were attached to the "BLAST****

If anyone has pictures from 2015 "Club Events", please upload them to tdcmotorclub@gmail.com. Danielle is trying to bring the club albums up to date.

Also, we are trying to do profiles on all of our members. If you could please email a picture of yourself with your car/cars so they can be put on our website, it would be much appreciated.

"COLLECTION TIME"

It's time to start collecting used parts for our trophies for Drive Out Hunger. **PLEASE NO PLASTIC PARTS The deadline is our April General Meeting on April 5th @ Tom Oates.**

Watch for shamrocks and clovers in February's Newsletter

The following was submitted by Pete Schroeder:

**Driving in the rain -- this may save your life
Good Vision in a Downpour**

How to achieve good vision while driving during a heavy downpour.

We are not sure why it is so effective; just try this method when it rains heavily. This method was given me by a Police friend who had experienced and confirmed it. It is useful....even driving at night. One method used by Canadian Military Drivers for years.

Most of the motorists would turn on High or Fastest Speed of the wipers during a heavy downpour, yet the visibility in front of the windshield is still bad.....

In the event you face such a situation, just try your Sun Glasses (any model will do), and miracle! All of a sudden, your visibility in front of your windshield is perfectly clear, as if there is no rain.

Make sure you always have a pair of Sun Glasses in your car, as you are not only helping yourself to drive safely with good vision, but also might save your friend's life by giving him this idea..

Try it yourself and share it with your friends! Amazing, you still see the drops on the windshield, but not the sheet of rain falling.

You can see where the rain bounces off the road. It works to eliminate the "blindness" from passing semi's spraying you, too.

Or the "kickup" if you are following a semi or car in the rain. They ought to teach that little tip in driver's training. It really does work...

This next warning is another good one! I wonder how many know about this:

A 36 year old female had an accident several weeks ago and totaled her car. A resident of Kinburn, Ontario was traveling between Kinburn and Ottawa. It was raining, though not excessively, when her car suddenly began to hydro-plane and literally flew through the air. She was not seriously injured, but very stunned at the sudden occurrence!

When she explained to the OPP Officer what had happened, he told her something that every driver should know - NEVER DRIVE IN THE RAIN WITH YOUR CRUISE CONTROL ON. She thought she was being cautious by setting the cruise control and maintaining a safe consistent speed in the rain. But the Officer told her that if the cruise control is on when your car begins to hydro-plane and your tires lose contact with the pavement, your car will accelerate to a higher rate of speed making you take off like an airplane. She told the OPP Officer that was exactly what had occurred.

The Officer said this warning should be listed on the driver's sunvisor, NEVER USE THE CRUISE CONTROL WHEN THE PAVEMENT IS WET OR ICY, along with the airbag warning. We tell our teenagers to set the cruise control and drive a safe speed - but we don't tell them to use the cruise control when the pavement is dry.

The only person the accident victim found, who knew this (besides the officer), was a man who had a similar accident, totaled his car and sustained severe injuries.

NOTE: Some vehicles (like the Toyota Sienna Limited XLE) will not allow you to set the cruise control when the windshield wipers are on. If you send this to 15 people and only one of them doesn't know about this, then it was all worth. You might have saved a life.
